PERSONALITIES.

We did not suppose that one of the chief fea tures of the Fillmore Convention, now in session in this city, was to be personal abuse and denuncistion of the editors of this paper. We have no ides that such was the wish or intention of the more respectable portion of our opponents. Three or four of the speakers on Thursday night entertained the audience, as we are informed, with the most filthy bilingsgate and vulgar abuse of the editors of the Union and American. There is no necessity for such slang. None but cowards and blackguards would resort to it, at the time and place and in the manner they have thought proper. If they have any personal grievances to redress, let them present themselves to us in person and apply their lying and filthy epithets, and if we do not twitch their nostrils or spit in their hang-dog countenances, we shall richly merit the slime they have poured out against us. What they may say upon the hustings, here or elsewhere, surrounded by their crowd of willing listeners, we shall treat with that indifference which self-respect and our sense of propriety dictates.

THE PROCESSION YESTERDAY.

The procession yesterday was counted at most of the corners as it passed. We have been handed four of these counts. The following is the

average:	
Omnibus load,	12
Women and children in carriages	205
Fillmore clubs,	114
"Old Jackson democrats,"	12
Military,	309
Delegations from countles,	168
Total,	820

all the effort to make an imposing demonstration here, would convince the most sanguine know nothing of the hopelessness of Fillmore's prospects

- This was the procession. On the ground there was, of course, a large number of people; from seven to ten thousand, are the estimates of different persons. We understand that the speaking was poor; but as we heard none of it we trust to rumor for this.

"OLD JACKSON DEMOCRATS."

A portion of the procession yesterday was devoted to "old Jackson Democrats." They followed a flag with that inscription. We counted them and they amounted, all told, to twelve persons! Our friends at a distance, who honor JACKson, will notice this: that here in Nash ville, near the Hermitage, in a convention of Middle Tennessee know-nothings, only twelve men calling ing themselves "Jackson Democrats," could be induced to join the procession.

The Louisville Journal is a remarkable paper. It footed up a few weeks since, a long list of conversions from Buchanan to Fillmore .-Among others were nine men living in Talladega county, Tennessee. There never was such a county in Tennessee or anything like it. What mattered that to the Journal. Nineteen-twentieths of its readers will never know any better.

Again. The people of Kentucky, notwithstanding their long familiarity with its abolition tendencies, have been greatly shocked with the Journal in the last week, at its open advocacy of the election of the black republican candidate for Governor in Indiana. Prentice saw that the democratic candidate was likely to be elected, and fearing that some of the more respectable FILLMORE men might hesitate on the day of the election in identifying themselves with the black republican cause, he has thrown his influence into the breach to rally the faltering column. Another point to be secured by this course was the FREMONT vote of Ky., which if he can bring into the support of FILLMORE as against BUCHANAN will greatly increase their chances for that State. But many of the more honest FILLMORE men of Kentucky have been shocked at the corruption and are murmuring against it. The editor attempts to justify himself on the ground that many democrats have expressed a preference for FREMONT OVER FILLMORE. Among other things he

The Knoxville Register, one of the most influential Buchanan organs in Tennessee, boldly proclaims that it would rather see Fremont elected than Fillmore,'

Who ever heard of the Knoxville Register being an organ of Buchanan before? There never was a more violent know-nothing FILLMORE journal in the State. But what cares Prentice? Not one in a hundred of his subscribers know that.

And yet this paper is countenanced all over the country; by many quoted as authority; by some treasured as their bible.

Our know nothing friends hereabouts seem to have become impressed with the idea that | Ohio any more your countrymen than the men of Nashville is the State of Tennessee. There was Virginia or Tennessee;" and he appealed to them never a greater error, as they will find out in Novamber next.

ANOTHER OLD LINE WHIG IN THE FIELD.-The Hon, George M. Bibb, Secretary of the Tressury during Tyler's administration, delivered a speech to his friends and neighbors at Gaithersburg, in Montgomery county, Maryland, in favor of Buch

anan and Breckinridge, STILL ANOTHER .- J. C. Bullitt, of Philadelphia, known as an influential old line whig, has taken the stump in favor of Mr. Buchanan. He made a most eloquent and forcible speech, on Wednesday evening, at Germantown. Friday evening he addressed a large and enthusiatic meeting at Flowertown, and on Saturday evening at Branchtown. in company with several others. He meets with an enthusiastic reception everywhere.

NEW YORK CORRESPONDENCE.

Tannany Halt. New York, Oct. 4, 1856 The great paper of to-day is the letter of the Hon Robert J. Walker, to the democratic committee of Pittsburg, by whom he was invited to give his views on the present Presidential election in the event of his inability to attend the mass convention recently assembled in the valley of the Obio. It fills four columns of the Daily News, and is unquestionably the most powerful and conclusive argument on behalf of the Constitution and the Union which has appeared signs the opening of the campaign. Better than any description which pen can give is the letter itself. I must therefore beg room for three short extracts-the exordium, the crisis, and the peroration. It commencest

"We are approaching the close of a momentous struggle. On the one side is arrayed the democratic party. It exists in every State, and over its united columns floats the flag of the Constitution and of the Union. On the other side is found a sectional and geographical party, composed exclusively of the States of the North. The father of his country clearly foresaw the danger of such a party, and warned his country against its fatal tenlency, in his affectionate farewell address. But his solemn appeals and prophetic forebodings are swept from our memory, smid the wild uproar of geographical strife and sectional prejudice. The mmortal Jackson, in his valedictory, warned us against similar perils, while the eloquent appeals. and parting admonitions of Clay and Webster, implore us to avoid the disasters of such a conflict — These departed patriots all regarded geographical parties as sealing the fate of the Republic; but we seem to think there is no such danger, and that, unlike all its predecessors, our Government is immortal and indestructible.

"For the first time in our history, such a geographical party is now formed. It is composed exclusively of the States of the North, and is arrayed in violent hostility against the Southern section of the Confederacy. It draws a line, clear and distinct, between the North and the South, and wars upon the people and institutions of the lat-ter. It declares the institutions of the South so degraded and infamous that Congress must exclude them from all that yast territory acquired by common blood and treasure, and which is the joint inheritance of all the States of the Union.— Louisiana (including Kansas and Nebraska) was acquired by Jefferson and saved by Jackson. But the South are no longer held worthy to inherit any portion of that territory, acquired by the illustri-ous patriot of Virginia and saved by the immortal

After a most masterly and conclusive argument showing the fatal consequences of these geographical party-divisions, he says:

"But this so-called 'Republican' platform is not only revolutionary and agrarian, but by forming a sectional and geographical party, arraying the North against the South and assailing the bulwarks of the Constitution, it exposes the Union to imminent peril. It is the Constitution that makes the Union, and the subversion of the Constitution is the overthrow of the Union. It is revolution, because it changes in fact our form of government. The parchment upon which the Constitution is written may still remain, the empty forms may still be administered, but even these will soon fol low, until not a fragment remains of the Government formed by the patriots and sages of the Revolution. If there are those who believe that the Union can long be preserved when the Constitution shall have been subverted and the supreme judicial tribinal of the Union expunged or obliterated, their delusive hopes, their dreams of domination and power, will soon vanish. We have now not only a sectional and geographical party, based the illustrious Washington, but we have a party advocating doctrines agrarian and revolutionary, subjecting all property to division or confiscation, and expanging the supreme judicial tribunal. I indulge in no menaces against the Union: I make no predictions on a subject of such fearful import. But this I can say, that the South will not and ought not submit to degradation; they will not be despoiled by the North of all rights in the common territory; they will not surrender their constitutional guarantees; they love the Union, but it is the union of the Constitution, the union of equals with equals, and not of sovereign State of the North with subject States-say rather, conquered provinces-of the South. Rather than submit to this, they will adopt the last alternative,

Thy spirit, Independence, let me share, Lord of the Lion heart and Engle eye, Thy steps I'll tollow with my bosom bare,

Though rolling clouds should lower along the sky. "Whether residing North or South, whether in public or in private life, my best efforts have ever been devoted to maintain the Constitution and preserve the Union. A love of our constitutional Union beats in every pulsation of my heart and is

entwined with every ligament of my frame." The closing appeal is as follows:

"Come democrats, come whigs, come friends of the Union of every party, come to the rescue of that Union which James Buchanan loves so well, and to preserve which the patriot statesman o Pennsylvania has given a long life of devoted service. Come my brother, give me your hand; let us save the country first, and then settle, at some future election, the administrative measures about which we now differ. Come in the name of our common country, now in the agony of an approaching convulsion! Come in the name of the Constitution and of the Union, now subjected to imminent peril! Come in memory of the commingled blood of the North and the South, poured out on the battle fields of the Revolution! Come in the name of the liberties of the world which would be crushed by the fall of the American Union !-Come with the farewell warnings of Washington on your lips, and imprinted on your hearts-not in sectional array of the North against the Southbut in the glorious panoply of our whole country, from North to South, from East to West! Let the thirty-one celumns wheel into line, and with the same inspiring battle-cry, pealing from rank to rank, re-echoing from State to State, THE UNION TO THE RESCUE! let us together march to the polls, as our fathers did, in the hour of peril, to the music

and flag of the Union." The steamer Tennessee arrived from Nicaragua vesterday. President Walker's position is mere improved both in military and political respects, His government seems to be firmly established. Rivas is repudiated even at Leon. A fight had taken place at San Jacinto with a party of rebels in which Lieut. Col. Cole, Lieut. Milliken and Mr. Marshall, a volunteer leader, with two others were shot, and seven wounded. The rebels were entrenched there, and another attack was about to be made by artillery when the Tennessee left .--Costa Rica has positively refused to invade Nica-Tagua again. A few of the forces of San Salvador and Guatemala were still at Leon, daily deserting and dying off at the rate of twenty a day. Cont. Turley, who with his entire company deserted Walker's army, turned robbers and had been killed by the Indians of Chontales, whom they had robbed. The colonization decree had been altered and rendered more advantageous to settlers. There was a large fleet of British men of war at San Juan del Norte. Gen. Walker had held his second levee, which was attended by our Minister, Col. Wheeler. Hon. Pierre Soule had left Grenada for New Orleans. Now that the dry

season has commenced, Mr. Walker will put his State affairs all right in a few weeks or months. The speech of Gen. Pierce at Concord on the 1st, in reply to the welcome given him was replete with good taste, eloquence and power. "Not to you (said he) are men of Massachusetts or of to adhere unwaveringly to the sublime creed of "One Union, one Constitution, and one God."-There was a leves at the depot hall at eight o'clock

at Hillsborough this morning. A new sect has sprung up in the interior of these | Jones and Jas. M. Davidson. northern regions styling itself "Black Republican Christians." They make political speeches in their pulpits every evening and their conversions to Fremontism are announced in Beecher's Independent as "unprecedented religious awakenings."-In one of these sermons, the Rev. Mr. Tafton of Mars, exclaimed the other day: "If you have but Commission Merchants, one dollar send it - not to Kansas, but to Pennsyl-EMUCFAW.

PENNSYLVANIA.

Our friends in Pernsylvania are confident carrying the State elections there in October. It is simply a contest there between the democrati and black republicans. The Fillmore know-noth ings have no ticket in the field. They vote the black republican ticket to a man. Their policy in this is, as stated in by the Augusta Constitutional

1st. To endeaver to defeat the democratic party in the State elections. 2d. If successful to induce the people of the South to believe that Mr. BUCKARAN is very weak in Pennsylvania.

3d. In the event of the election going into the House of Representatives, to have such a cordial understanding between themselves as to secure the election of FREMONT to the Presidency.

If the fusion ticket is successful in October Pennsylvania, the FILLMORE papers in the South have already had their course mapped out. The telegraph reports will herald the news-flaming capitale will announce that "Mr. BUCHANAN is defeated in his own State, and every free State is against him." The rallying cry will be, "unite on FILLMORE! unite on FILLMORE! or FREMONT will be elected !"

These will not be very satisfactory rallying cries nor will the people of the South receive them otherwise than with scorn and detestation, when the party that makes them foully conspired with the black republicans of the free States to cause the evils which they will so very hypocritically de-

Where is the FILLMORE party in the free States? Where were they in the battle in Iowa, or in Maine, or in Vermont? They were in the camps of the enemy-in the ranks of the black republicans, and as they were banded with our enemies then,

so will they continue. It is possible that the election in October Pennsylvania may result in favor of the FILLMORE and FREMONT fusion there; but that will not weaken our confidence in the result of the election for the Presidency in November. We feel satisfied, abundantly satisfied, that Pennsylvania will cast her twenty-seven electoral votes for Buchanan and BRECKINRIDGE.

It has become very fashionable of late with a certain class in this and other slaveholding States, to call the jealous regard of Democratic editors for the rights of the South humbug and stuff, and as calculated to frighten old women and weaker men. It is easier to sneer than to frame a logical reply, and we are not surprised, therefore, when silly free-soilers resort to this method of answering our arguments. But we insist, nevertheless, that the people of the South have need to be on their guard against abolition emissaries, many of whom are in our midst, and some of whom own slaves merely as a blind to shield them from sus-

As evidencing the necessity of the caution we have urged, we cite a few examples of announcements contained in some of our exchanges.

A day or two ago we gave an account of the expulsion from Alabama and Mississippi of several Northern incendiaries. Of two more of these persons, the Sumpter (Ala.) Democrat says:

"We have just learned from a private source that two men by the name of Piece, Yankee school teachers in Clark county, Mississippi, have been section, to insurrection, in the following bold and fearless manner. One of these gentlemen had idenified himself with the community in which he lived, by purchasing a saw mill, under which he had a room, so constructed as to enable him to hold his councils unperceived. It was discovered in a neighboring swamp that they had also fitted up a rendezvous, with seats, &c., sufficient to accommo date three hundred persons, where, according to the testimony of the negroes, they (the negroes) had assemblies from ten miles souare.

The Elba (Ala.) Democrat states that five or more of these pernicious scoundrels were recently expelled from that place for crimes similar to those above described.

Two pedlars were recently expelled from Cheraw, South Carolina, on the charge of tampering with negroes. One of them on his arrival in New York-to which place his passage was paid-published a lachrymose card in the New York Herald, in which he stated, with all the necessary preliminaries of injustice, oppression and ire, that he had been deprived of his property.

A few days ago, the citizens of Livingston, Sumter county, Georgia, held a meeting to consider the case of a man named Samuel Sherwood, charged with being an abolition incendiary. He was ordered to leave the State within three days. A suspected abolitionist has also been arrested at Columbus, Mississippi, and placed in jail for trial. The Richmond, Va., Enquirer, commenting on this state of facts, says:

" With these evidences of practical interference with slavery, we are told by semi-abolitionists in this State that there is no danger that slavery in the States will be molested, and our intimations that this is possible are rated as humbug and charlantry. The fact is we cannot hope for better things while men are tolerated in a Southern community, who occupy the same position of hostility to the South which is maintained by every Black Republican at the North. Yet such there are stalking abroad in the community, who claim exemption from the punishment inflicted on incendiaries, because they happen to reside in Virginia. Such men are more to be hated and feared, and deserve severer punishment than the vilest abolitionist of the North. They are hypocritical pretenders, wolves in sheep's clothing, venomous vipers, who should be crushed without pity."

"It will thus be seen that though the democracy may be defeated in the State election, with a separate Fremont and Fillmore electoral ticket in No vember. Buchanan can carry Pennsylvania by 33, 000 majority. The only question of uncertainty whether the Fremont and Fillmore parties will distinct in November. The indications are that they will not, but will act together upon some system of fraud and corruption .- Union and Ameri can of Friday.

Upon this the Louisville Journal says: "The editor of the Nashville Union, in his paper of last Friday, says that the indications are that Pennsylvania will go against Mr. Buchanan both in October and November."

And thus the abolition organ at Louisville AD-MITS that the black republicans and know nothings will "act together upon some system of fraud and corruption," the only condition on which we conceded that Pennsylvania could possibly go against Mr. Buchanan. PRENTICE no doubt feels happy in having accomplished a union of his party with the abolitionists after so many years of faithful and Jesuitical labor.

UPRISING OF THE MASSES. The democracy of Rutherford had, on Thursday last one of the most enthusiastic and effective demonstrations that we have witnessed in many a day. No one could conscientiously estimate the

crowd present at less than TEN THOUSAND. This meeting gives glorious guaranty of the true and deep feeling of patriotism which wells up from the heart of the Tennessee democracy. Bedford and Cannon had sent their yoemanry, and they came in imposing array. The preparations were ample, and of an unusually elegant nature. We think in fact we have never seen a more elegant and and substantial barbecue. Fair ladies graced the occasion with their presence to the number of at least Two THOUSAND. Speeches, which were of the first order for talent, earnestness and eloquence, were made by Hons. Jas. H. Thomas, Gro. W The military companies from Nashville and the county made a gallant appearance in procession.

ANOTHER OLD LINE WHIG FOR BUCHANAN:

TANK, October, 9. MESSES. EDITORS :- We had a glorious meeting here to day. The sun shone o'er an immens crowd of "fair women and brave men." J. Lir-TON BOSTICK made his debut as a supporter of "Buchanan and the Union." He is an old line whig in sentiment-whig in feeling, and we may say whig by inheritance, his family and connexion being strong and influential whige-at least they were so when such a party existed. Mr. Bostick made a most admirable speech. He took the ground that Fillmere and his party in the North, by permitting the black republicans to elect the members of Congress and the Legis. latures, had placed him in the position, that even if elected, he would have no party to sustain him. He stated that Mr. Buchanan was not only available, but was a sound, true, Union-loving, national man, and had the support of a great national party. His speech caused some of the know nothings to grit their teeth, and swear some-not that he was offensive in his remarks, but that his influence would be felt in the contest. Speeches were also made by Maj. Love, Mr. Wagner, and Mr. Mo-Gavock, and every thing passed off well. The crowd were very enthusiastic, and they pledged themselves to give a good account at the ballotbox in November.
